Što je OpenStreetMap (OSM)?

- <https://welcome.openstreetmap.org/>
- OpenStreetMap je slobodna karta cijelog svijeta napravljena softverom otvorenog koda, nastala zajedničkom suradnjom milijuna ljudi poput **vas**
- OpenStreetMap sadrži podatke o cestama, zgradama, adresama, trgovinama i poduzećima, točkama interesa, željeznicama, stazama, prijevozu, korištenju zemljišta i prirodnim obilježjima i još mnogo toga.

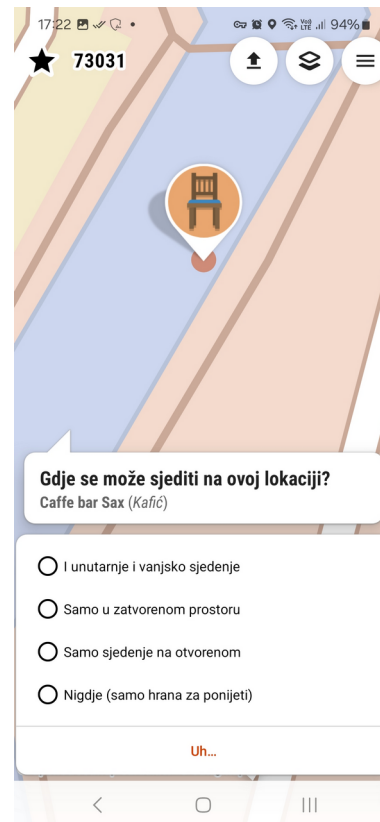

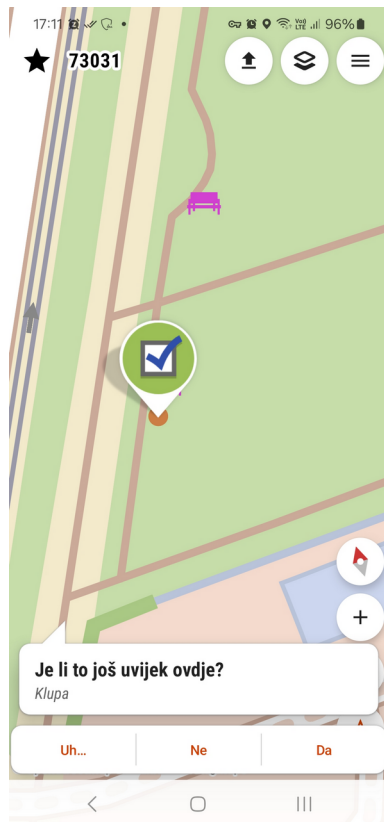

Što je StreetComplete?

- <https://wiki.osm.org/wiki/StreetComplete>
- Mobilna aplikacija za Android (trenutno; iOS u izradi)
- Vrlo lijepo i jednostavno korisničko sučelje
- Omogućuje početnicima bez ikakvog znanja o OSM-u da doprinesu vrijedne podatke koji nedostaju na jednostavan i zabavan način
- Trebate motivaciju za izlazak u šetnju?

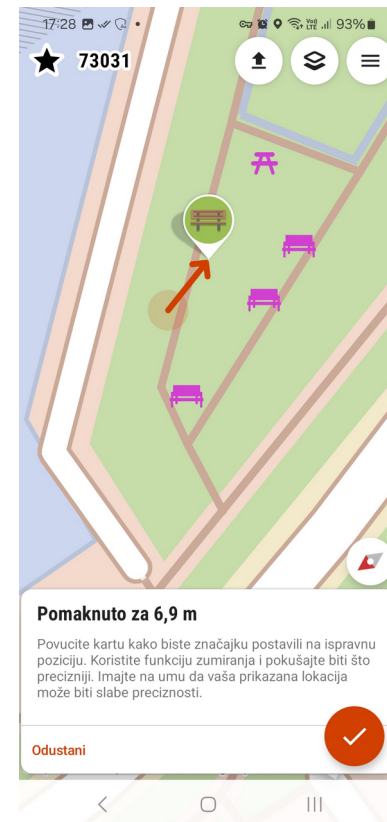

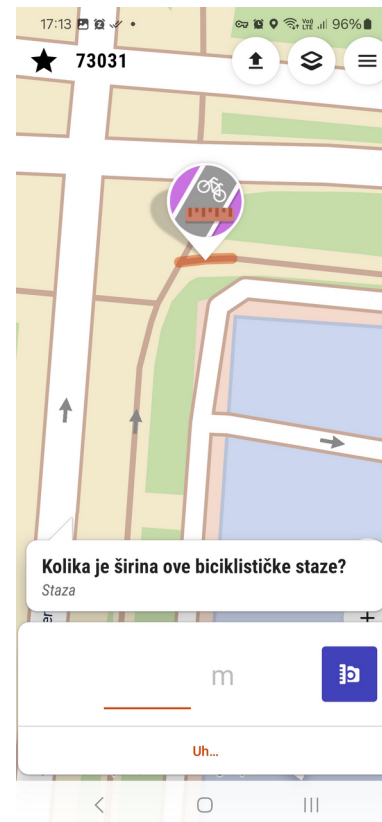

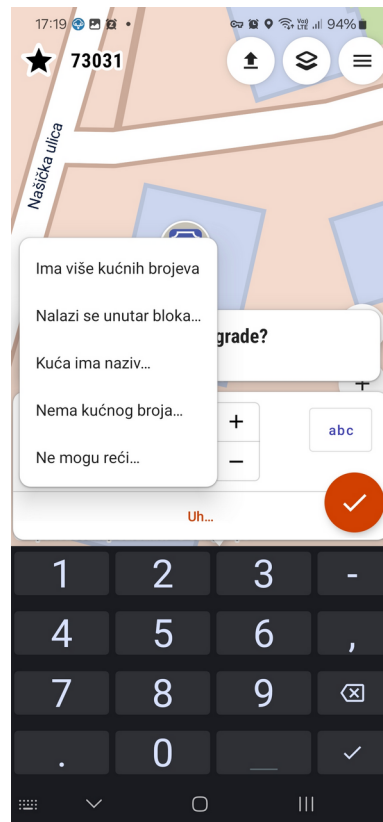

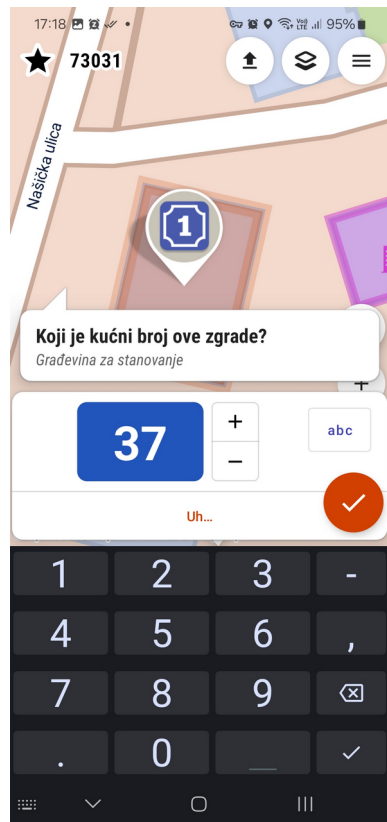

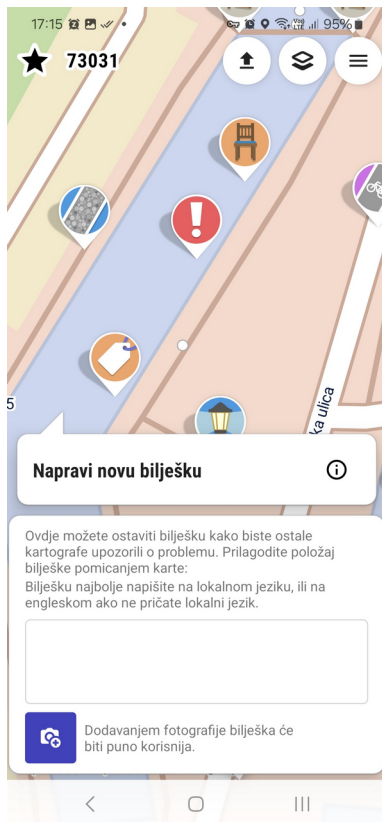

StreetComplete - Zadatci (Quests)

- Izvorno temeljeno na "*Zadacima*" - jednostavnim pitanjima o podacima koji nedostaju:
 - Kakva je površina ove ceste/pješačke staze/puteljka/...?
 - Postoji li ovdje biciklistička staza ili staza? Koje vrste?
 - Postoje li ovdje zvučni signali za slijepe osobe?
 - Je li ovo mjesto pristupačno za invalidska kolica?
 - Koji je kućni broj ove zgrade?
 - Morate li ovdje platiti parkiranje?
 - Što se ovdje može ostaviti za recikliranje?
 - Ima li ovdje na jelovniku veganskih proizvoda?

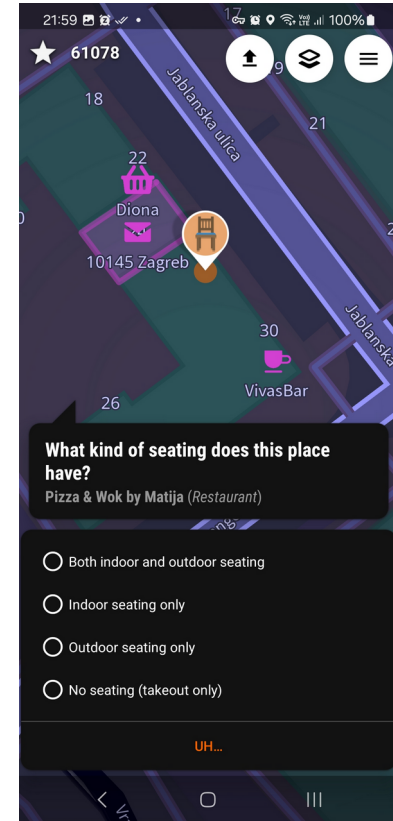

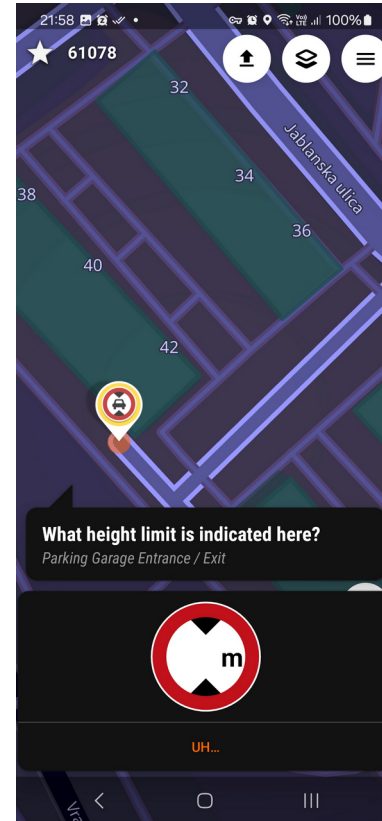

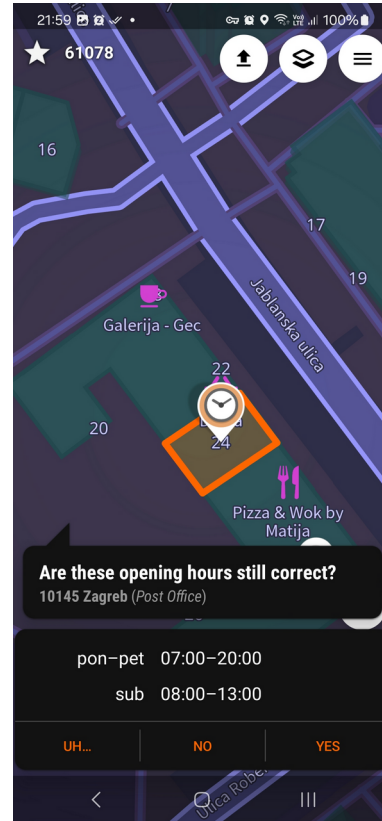

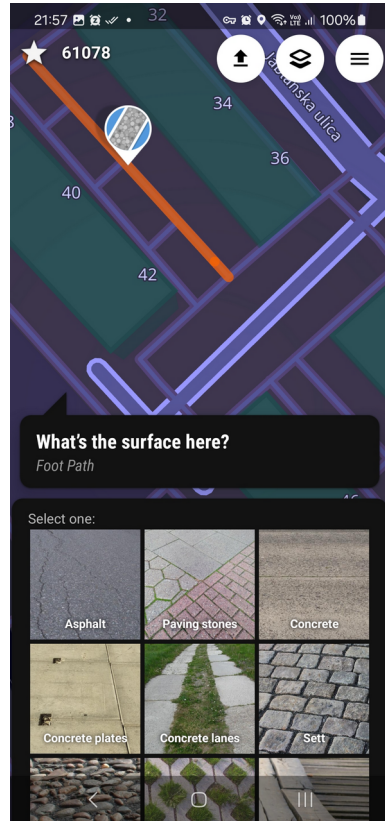

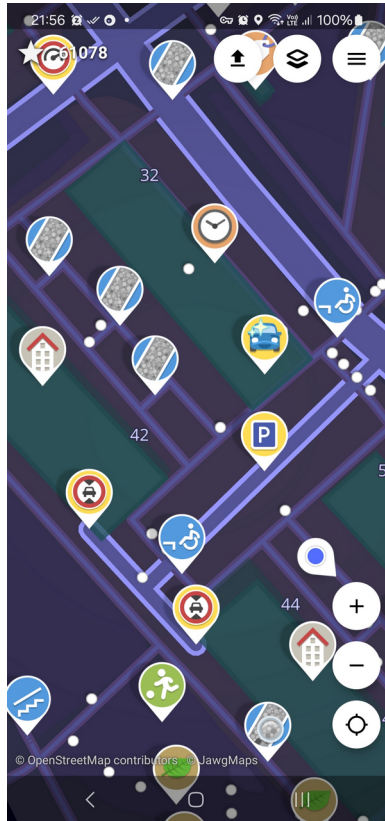

StreetComplete - Zadaci

StreetComplete – Zadatci..

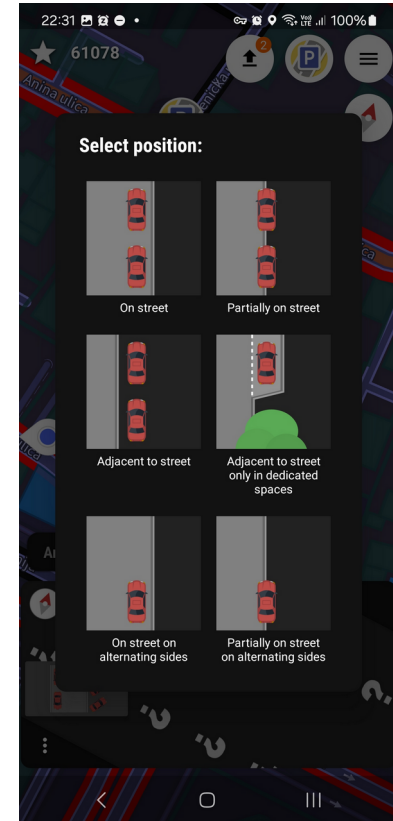

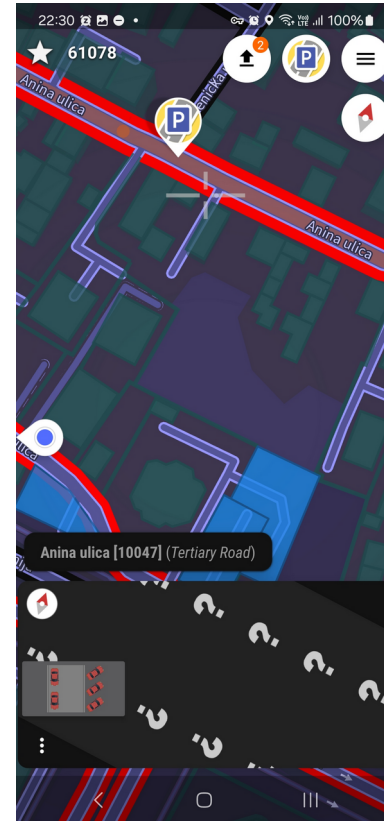

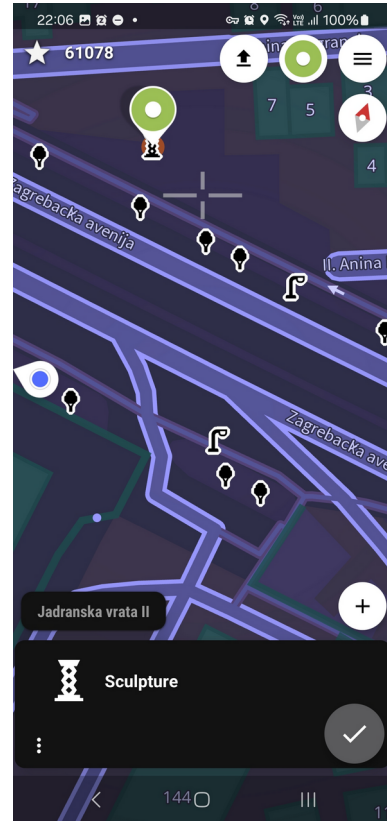

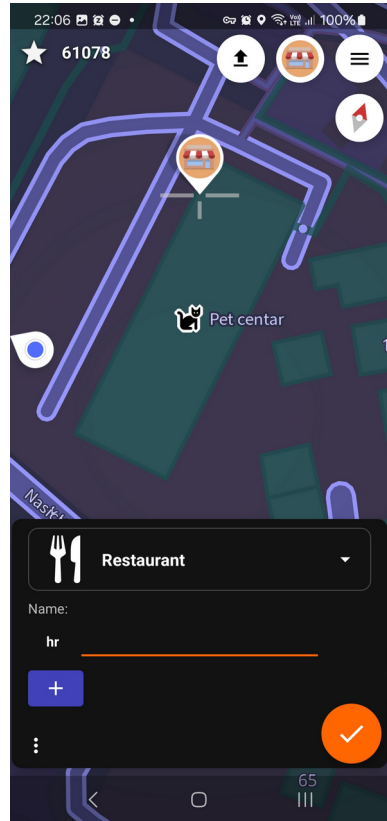

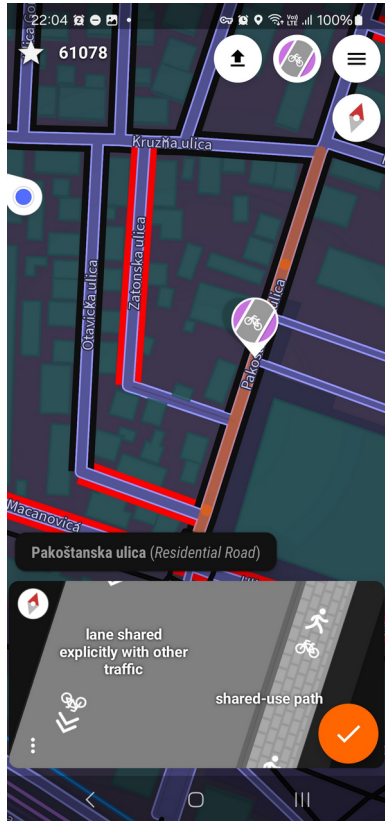

StreetComplete – Zadatci...

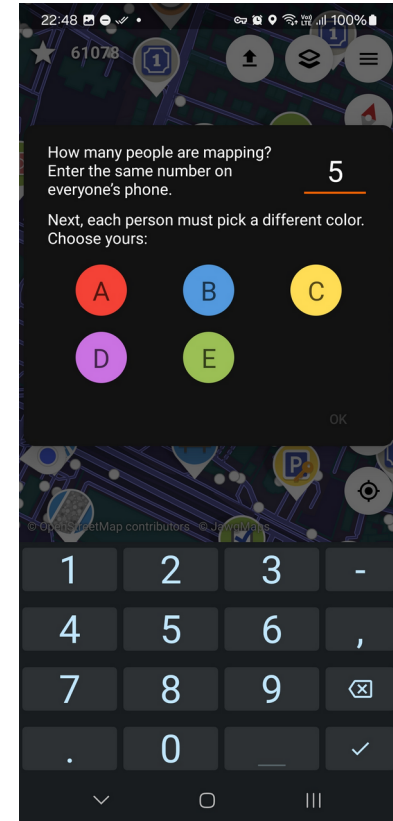

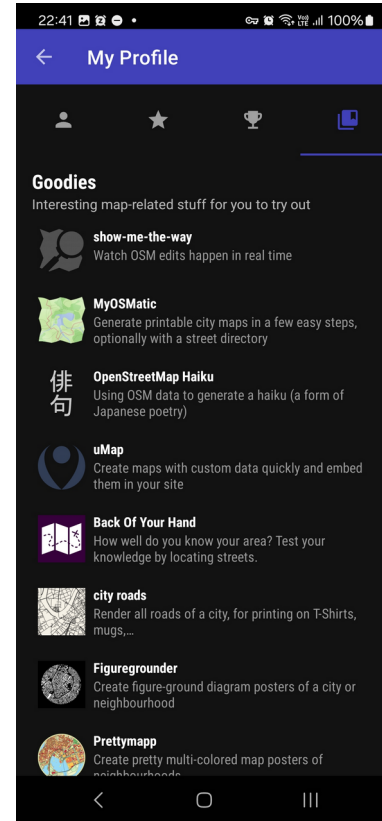

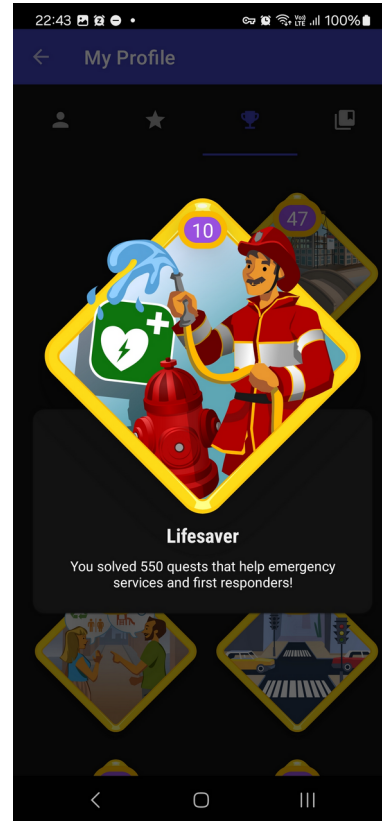

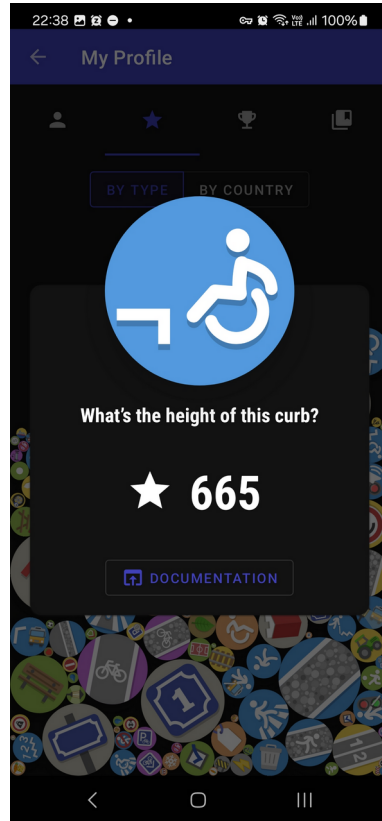

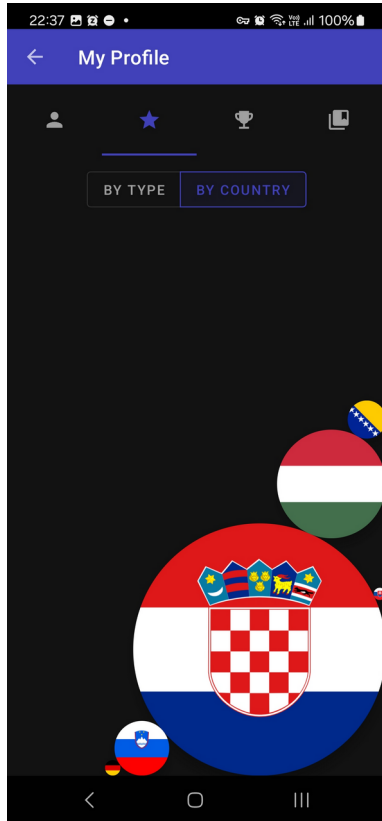

Nadslojevi (Overlays)

- Tematski pregled i izmjena:
 - Površine, Ulična rasvjeta, Nogostupi, Biciklističke staze, Ulični parking, Zgrade – ažurirajte svojstva
 - **Usluge** (trgovine, restorani, banke...), **Stvari** (klupe, poštanski sandučići, vatrogasni hidranti...), i **Adrese** također dodatno omogućuju *dodavanje novih* točaka interesa

StreetComplete - Nadslojevi

StreetComplete - Igrifikacija

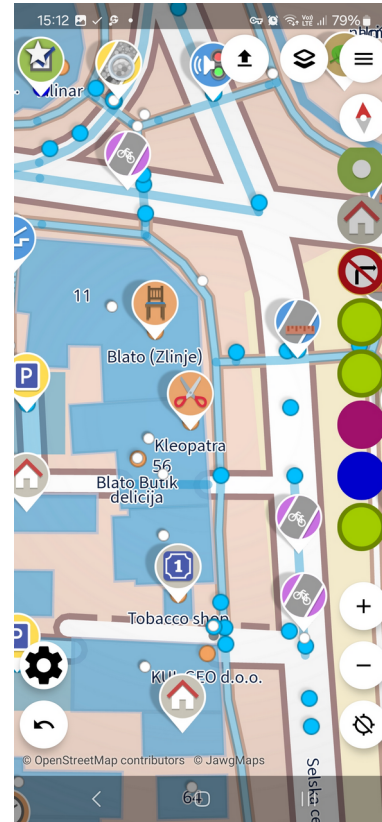

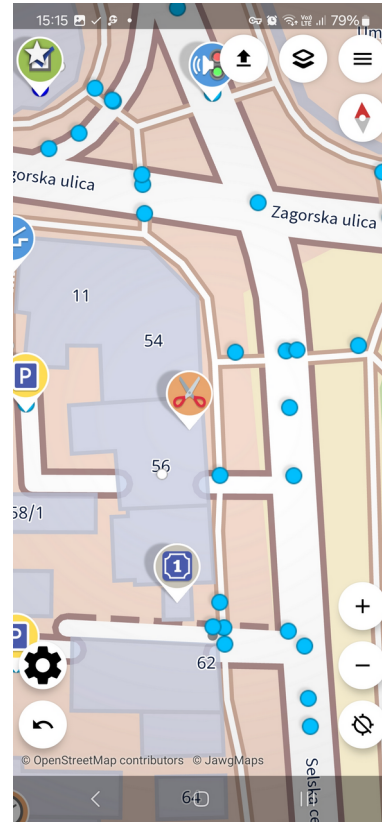

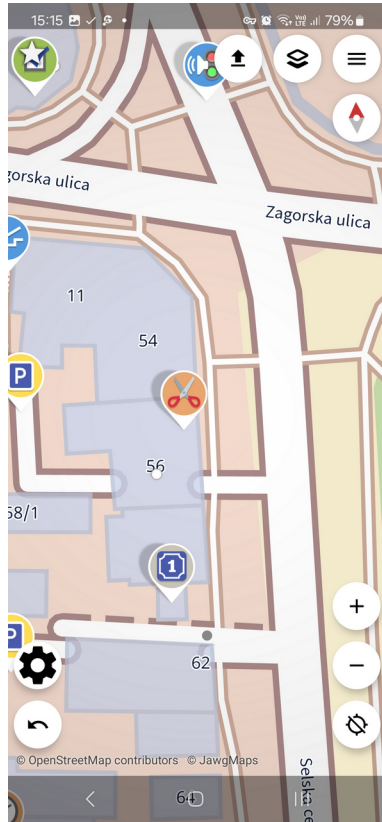

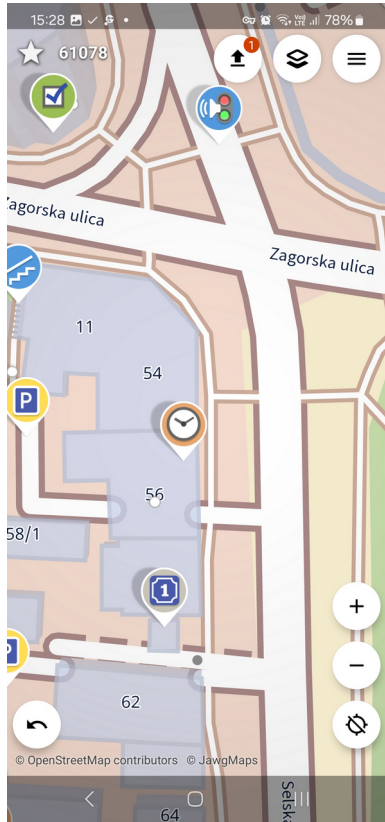

Slični alati

- Go Map!! (samo IOS)
- Every Door (Android+IOS) – samo POI
- SCEE („Expert Edition” fork StreetComplete)
- <https://wiki.openstreetmap.org/wiki/Editors>
-

StreetComplete vs. SCEE

<https://wiki.openstreetmap.org/wiki/SCEE>
